NEXT STEPS

PLEASE NOTE:

This blueprint, the strategy and all contents of this book, are a direct revelation and download from God. It has been revealed through myself and several other people and compiled here to the best of my ability at this time.

Just as we are not to twist or alter scripture, and misrepresent God in any way, we ask that you do not alter this blueprint in any way.

Information and technology can be used for good or evil, God's intent or our own. Please do not share or give this information to anyone who is outside our HESED International network to protect God's plan, the children, and ourselves. This blueprint and its strategies are to be used for building God's Kingdom.

Thank you!

INTRODUCTION

The 14 Mountain Blueprint started being revealed to me years before I met God, around 1999. I had a vision of building sport academies, helping children succeed in elite sport and in life by providing housing, education, sports, and spiritual mentorship. But I saw doing this with children of privilege who could afford it as a boarding school. This was the context I lived in and all that I knew. Clearly I had a long way to go to get to where God wanted me.

In 2010 I started building the first location in Canada, but I kept hitting obstacles and went through some devastating situations because I was not aligned with God. But I kept trying! At one point I decided to give scholarships to some under-privileged kids in my city so they could benefit from the training their parents would not be able to afford. I LOVED how teachable and receptive they were, but most of all I felt so inspired by their appreciation. The more I poured into them, the more they thrived. I saw something I had never seen before.

In 2016 I went to Ethiopia on a soccer mission tour as the coach of a university women's soccer team. God told me that while I was in Africa, he would reveal my life's mission. That got my attention and I became acutely aware of everything I experienced. One morning before sunrise, we were driving on our bus through Addis Ababa, and I saw a dozen little kids sleeping in the mud under a highway bridge. They were about 3 to 12 years old and they were sleeping with the arms and legs interlocked. It looked very uncomfortable, so I asked our interpreter why they were sleeping like that. He explained that men come at night and pull a child away to rape them, but if they sleep like this the other children will awaken and hold on tightly to keep everyone safe. He further explained that the older children were like parents to the younger ones and had likely come up with this plan. **My heart broke for these children**, and I promised to come back to Africa and build sport academies for them. This was a big turning point because I had to revise my vision completely.

As I started to write down the plan, my relationship with God also took a big turn as I was exposed to hearing God's voice, miracles, healing and the supernatural. God started showing me more aspects of the plan and it became more like a blueprint. He started showing me plans for farming, electricity and water, and entrepreneurship. The world started to change and there was a push for sustainable living. I was getting revelation of Kingdom living and moving away from religion. He showed me all the corruption in all aspects of society and how angry and saddened he was by it. Then I was getting visions and dreams of things that were way beyond my understanding at the time. They things I saw confused my friends and mentors and nobody seemed to understand or have context for it. So the only safe place I had to discuss everything was with God.

Finally, in 2020 I had the entire 14 Mountain Blueprint in detail and God started showing me the next steps in how to implement it. When I say next steps, what I mean is that he still only shows me the next couple of steps, and I do not know past that other than what

the finished product looks like. That's the great thing; I know that as people come HESED International, they will bring with them other pieces and details of how to bring the 14 Mountain Blueprint to life. This is a living, breathing blueprint that evolves, grows, and brings life as people engage. I have never built anything like this, and to my knowledge nobody else has, except for King Solomon when he built Jerusalem and Israel. In fact, this blueprint is the same one God gave Solomon centuries ago.

Today I understand this blueprint on an entirely different scale and in the context of the times that we live in. There is a purpose far greater than I ever imagined and it still baffles me why I was chosen to be an architect to help leaders build it all over the world. This plan and vision is so big and important that I am often overwhelmed. I am not qualified to do this from the perspective that I have no formal education in this sort of thing. But my good friend Marelise tells me; God doesn't call the qualified, he qualifies the called!

That said, if you are reading this, you are likely called as well. The question is; what role do YOU fill in the building process?

Others have had visions of holistic sustainable villages and that's a good thing. This is how we know we are all hearing from God and we're on the right track. Now it's time for all of us to join as ONE to build. We were called for such a time as this. We each have a part to play which is a beautiful thing.

Once I had received the full revelation of the blueprint, in awe and complete humility I said, "God, this is brilliant! This is so beautiful and it's like nothing I've ever seen or experienced before. It is utter perfection."

I saw that we would actually rebuild his Kingdom, so I said, "God, in order to build something of this greatness, it must be built on a foundation of LOVE!". The name of this movement of God needed to be "love" because names are important. Because 'Love International' sounded a quite insufficient, I looked up the Hebrew word for love and discovered 'hesed'. It means unearned, undeserved, faithful love. Perfect!!! HESED International was born.

Since then, many people have added to the blueprint bringing the pieces that God has shown them. So what you're experiencing is not only coming from me, but rather I am commissioned to gather the pieces and compile them in order preserve it and pass it along to those called to build it.

Now, let's dive into the blueprint. Because as I said, this is a living breathing blueprint and must be built strategically with strong foundations on His rock, we must be thorough and have complete understanding mentally, physically and spiritually.

I may use the term HESED villages at times. Remember that HESED is not a brand and that HESED International does NOT own any of the villages. God owns all the villages and we are submitted to him. It is simply easier to say "HESED villages" rather than to say all the different villages by their name. So saying HESED village is the same as saying "love village".

A GREATER PURPOSE

First we must understand the purpose and context of the 14 Mountain Blueprint.

At the beginning of 2020 we transitioned into a **new era** of time. You may have noticed that the world has changed significantly. Throughout history we have had eras that were significantly different from the previous one. There was an era in the wilderness, the era of the kings, the era the era of silence, and the era of the gospel. God moved differently in each of these eras. The Tribe of Issachar was exceptional at **understanding the times they were in, how God was moving during that time, AND how they were to co-mission and align with Him.** Today, we want to be like the Tribe of Issachar and we have references to help us understand these times. Prophets brings words of knowledge and wisdom to us so we know how to navigate. We have the Bible, and in particular the books of Revelation, Matthew 24, Ezekiel, Elijah as well as some of the other prophets provide us with accurate references and direction. And of course we are able to go to God directly ourselves to receive wisdom and direction.

There are many characteristics of this new era that would fill an entire book. But one of those we will focus on is the **Herod spirit** that is attacking the children. Abortion, abuse, gender confusion, mental illness, suicide, divorce and family destruction, undermining parents, social media, video games, certain movies, certain music, “vaccines”, sex trafficking, labor trafficking, child marriage, organ harvesting, poverty and more are destroying and killing children in record numbers.

But God has a plan for these children! Furthermore, if you’re reading this, you are likely called to be part of that plan. Your work with the vulnerable children (impoverished, trafficked, abused, abandoned, orphaned, indigenous) has been meaningful and impactful up to now. **But now, it’s time to switch gears.** God’s plan for these children is greater than we ever thought. He is preserving this remnant for a special purpose - to rebuild and establish His Kingdom on Earth. These kids will do things far greater than ourselves and that we can’t even imagine. They will be the leaders of governments, education, business, banking, sport, media and much more. These children will lead with compassion, justice, truth and love.

Our important and unprecedented job is to preserve this remnant! Intimidating... YES! Impossible... NO! God has given us a blueprint and a strategy to preserve, teach, raise up, and love these kids so they are ready for their historic purpose. We are not only going to break poverty, we are going to witness **Isaiah 60** come to life with and through these children.

What you might read in this blueprint and strategy might seem surreal, but we were born in this era, for such a time and purpose as this. With God nothing is impossible, and we execute this plan through faith and not by might. He is our strength.

This is the moment where the children **leave Egypt and enter the Promised Land.** This is **Isaiah 60 fulfilled.** This is moving from **poverty to abundance.** This is the move from **victim to victory,** from **captivity to freedom and inheritance.**

Child Brides

PROBLEMS & SOLUTIONS

The world's two biggest problems...

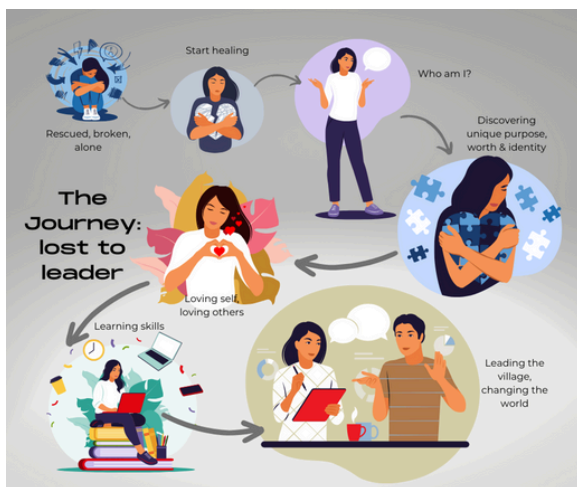

We believe that the vulnerable children today are the ones who will change the world, restoring health, peace, sustainability, order, and even a loving society.

They are the leaders of tomorrow that will rebuild the very world that tried to destroy them.

God has a plan for them.

That plan starts with building holistic sustainable safety villages for these children. In fact these kids actually take part in the building process and operations of the village. There is healing and empowerment as they're mentored and supported, then finally become leaders of the village.

They grow from victim to victory, lost to leader, and poverty to abundance as they learn to experience family, build trust, love God and love themselves.

It's a brilliant blueprint and it works! We know this because God designed it and he loves these children.

THE POWER OF ONE

We have identified 6 problems that prevent amazing leaders like you from implementing such an amazing but BIG plan.

lack of money

lack of people

no infrastructure

no sustainable plan

lack of training

lack of tools & equipment

This blueprint is designed to work only by coming together as ONE.

Alone, we are easily defeated. But as ONE we have the power to solve every one of these problems.

HESED International is a global network of people and organizations implementing the God's plan for the most vulnerable kids of the world by building his 14 Mountain Blueprint.

Ecclesiastes 4:12 And though a man might prevail against him who is alone, two will withstand him. A threefold cord is not quickly broken.

1 Corinthians 12:24-27 But God has put the body together, giving greater honor to the parts that lacked it, so that there should be no division in the body, but that its parts should have equal concern for each other. If one part suffers, every part suffers with it; if one part is honored, every part rejoices with it. Now you are the body of Christ, and each one of you is a part of it.

THE FINISHED PRODUCT

Miniature Jerusalems

Jerusalem was built long before King Solomon came along. In fact the Jebusites occupied the city in what was called the land of Canaan, when King David conquered the city and the Israelites moved in.

The 14 Mountain Blueprint is the same plan that God gave King Solomon to build Jerusalem and Israel. But that I mean he built the abundant economy, trade

routes, culture and societal pathways to align with God's will so the Israelites could live in abundance, peace, harmony and protection. They were so prosperous that all the kings and governors around the world came to King Solomon to consult with him on how he was so successful (1 Kings 4:34). Queen Sheba remarked that even the servants were healthy, wealthy and happy (1 Kings 10:5, 8). This was how God was glorified, and Solomon witnessed to the world the goodness of who He is.

We can think of our villages as miniature Jerusalems. Consider the spiritual significance as well as the physical, relational, and financial implications of that.

Jerusalem was built to protect and provide for His chosen people. Now that the "gentiles" are grafted in, we are ALL His chosen ones. As we build, we will increasingly discover more of God, ourselves, and The Kingdom.

King Solomon built a thriving abundant economy and culture as he connected all the cities of Israel together through trade routes. They kept the wealth in the United Kingdom of Israel and because of their entrepreneurship skills and submission to God, Jerusalem and Israel were the closest representation of Heaven on Earth that we have seen since the Garden of Eden.

Each village is like a miniature Jerusalem. As we network together as one around the world, we form a global Israel.

Garden of Eden Regenerative Eco-systems

All living things in each village is interdependent and regenerative, giving life to one another. That includes people, plants, animals, water, land, and air. There is no waste because everything cycles back into the environment and culture forming an eco-system that the world has been fighting to attain. But God has given us the blueprint to make this happen.

Return to Ancient Paths and Technologies

There are ancient technologies, principles and designs that are brilliant and sustainable. For example, consider how the Egyptian pyramids were built, using stones that weight a few tons each. Consider the temple that Solomon built. These technologies provided peace, sustainability, simple and clean lifestyles. They included the supernatural. Hidden for a long time, They are now being revealed and we have some of them already.

Dome of Protection and Provision

As I was receiving this blueprint, I saw a dome of protection and provision forming over each village. When we build the blueprint without deviation, God's protection and provision will prevail. In the increasingly violent times we are entering, imagine what this will look like! I'm not sure if there will be an actual dome, or if it will be supernatural, but I know that it will appear once the blueprint is built and the HESED culture is functioning.

NOT JUST A BLUEPRINT

This is not just a blueprint... it's a **HEART PRINT**. Anyone can build a sustainable village, but there is only ONE way to build it with a foundation that will last through fiery furnaces, storms, earthquakes and the times that are coming. **It must be built with a foundation of love... HESED LOVE.** HESED love is the rebar, in the concrete, of the foundation of every HESED village.

God has given us the direction and teachings to be able to do that, making the 14 Mountain Blueprint a living, breathing plan that can only be built as we come together in **oneness**.

The blueprint is not just an end result or an end goal to build. It is also an ark that provides us with safe passage as we navigate the times we are in and that are coming. Instead of loading animals on the ark like Noah did, we are loading children into our villages where they will be protected and provided for as they actually build their own villages.

The blueprint is **relational** and can only work as each mountain realm collaborates with the others. For example, the Government Mountain leaders cannot dominate the other mountains, rather they serve and simply coordinate all the other mountain functional activity to maintain order, timing and synchronization.

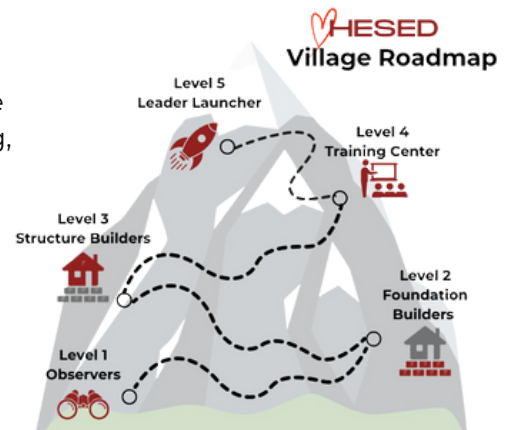

The blueprint is **experiential** which means that it can be explained but to truly understand it, one must live it. All teaching is experiential and has feelings and emotions as each citizen is imparted with the love and truth of God as they build and function within the village.

Building a HESED village is a journey of love with one another, with creation and with God. We start that journey with Level 2 training cohorts.

Level 2

God has provided with an holistic training process where we build the foundations first, and that starts in our own hearts, bodies and minds. It includes the Encounter Heaven series where everyone learns how to ascend and go into deep realms of Heaven for healing, revelations, direction, wisdom, and transformation. This is followed by 7>14 Mountains series which is about understanding the times we are in (Proverbs 10:5, 1 Chronicles 12:32), both in how the enemy is moving and how God is moving. Then we progress to the One Nation series where we learn how to be as one with God, with creation, and with one another. We complete Level 2 foundation building with the Manifesting Abundance series which is about how to manifest our citizenship, wealth, health, land and all things needed to build your HESED village.

Level 3

In Level 3 everyone is activated and supported in building their village with the wisdom and vision God has planted inside you as it aligns with the 14 Mountain Blueprint. All the technologies are shared and accessible in our growing Technology Library. These are ancient technologies that have been hidden for centuries and are now be revealed to God's people (Daniel 2:2, Jeremiah 33:3).

TIME TO BUILD

The best time to plant a tree was 20 years ago... the second best time is **now!**

It seems as if it's too late to build, but God is accelerating everything for those that are able to ascend to Heaven for transformation and wisdom, and for those that are living FROM Heaven and able to manifest. While we cannot waste any time, we do not need to panic.

Yet we must understand the times we are in just like the Tribe of Issachar (1 Chronicles 12:32). In early 202 we began a new era - the Era of Kingdom.

But along with that we find ourselves smack dab in the middle of the book of Revelation and Matthew 24, but also Isaiah 60. **Both are manifesting at the same time!**

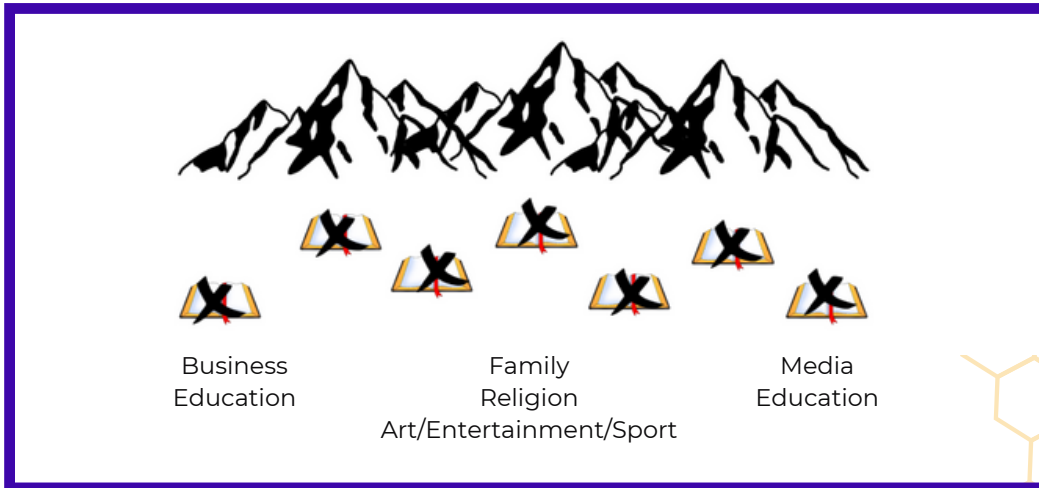

The four horses of Revelation 6 are playing out right now. The White Horse of Conquering, the Red Horse of War, the Black Horse of Famine, and the Green Horse of Death and Destruction. Each one following on the heels of the other, it is clear where we are and what is coming soon. But we do not live in fear because our God has given us a **brilliant solution** that no man could have invented on his own.

David wanted to The Kingdom but he was never able to because he spent much of his time fighting off the enemy and clearing the land. The intercessors, who are like the archers of the army, have gone in and cleared land for us and awakened many to see what we must do. They have set us up to build just like David set his son Solomon up to build Jerusalem and Israel.

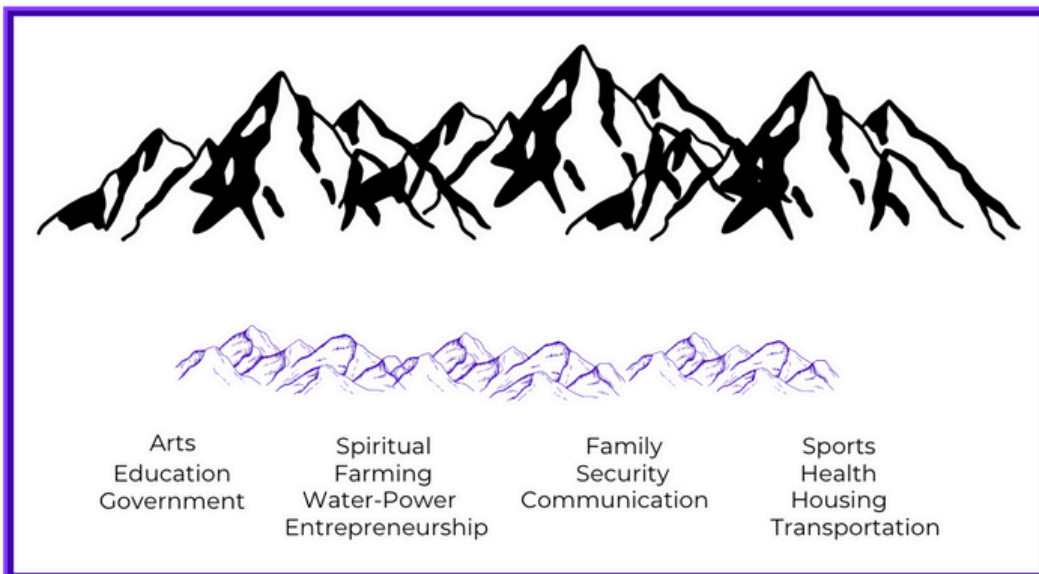

Now it's time for the Josephs, Calebs, Nehemiahs, Esthers, Joshuas, and King Solomons to **build!**

Joy, peace and love are our weapons; our offensive and defensive strategy. No harm can befall us as we encounter Heaven together as one daily.

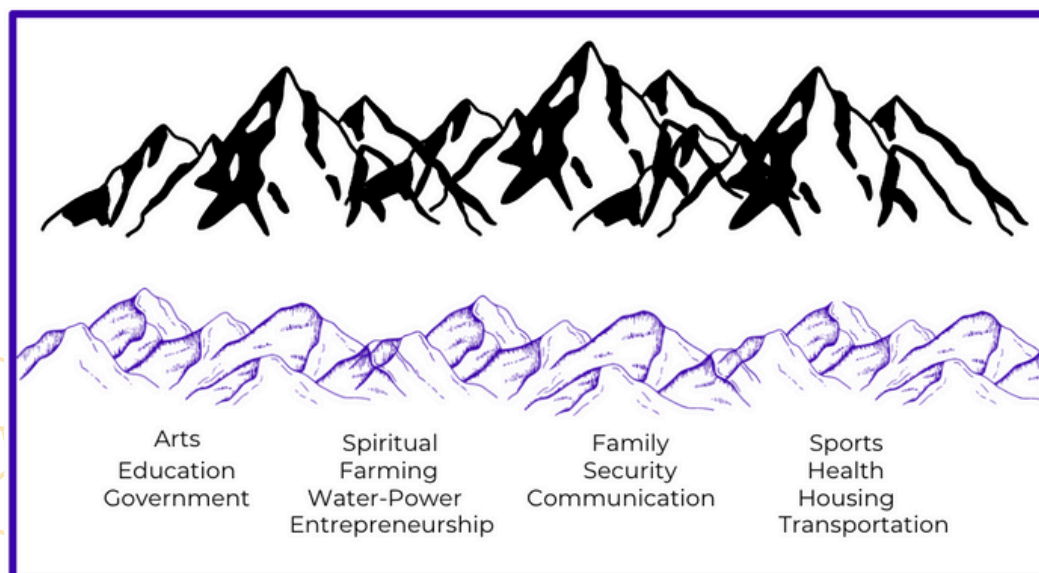

7 > 14 MOUNTAIN PROPHECY

There are 7 pillars that society is built upon. God intended them to be built on his truth, but the enemy infiltrated leadership, removed truth and established corruption, lies and deception.

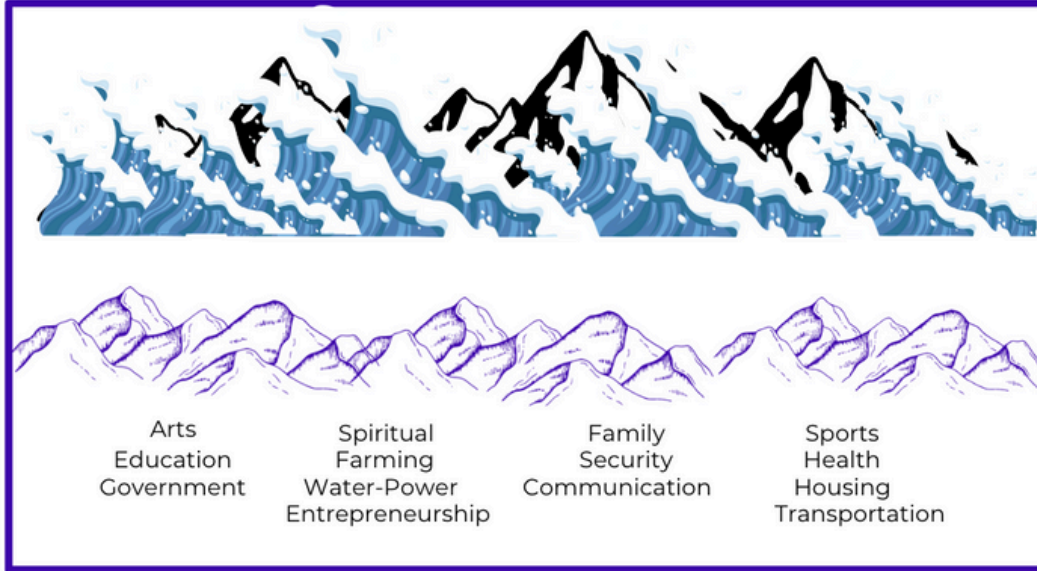

God has given us a mission to rebuild his Kingdom with the 14 Mountain Blueprint. We cannot take over the old 7 mountains because we must build on new foundations of truth and love. It is a parallel society disconnected from the world's systems Matthew 7:24-27 Luke 5:37-39

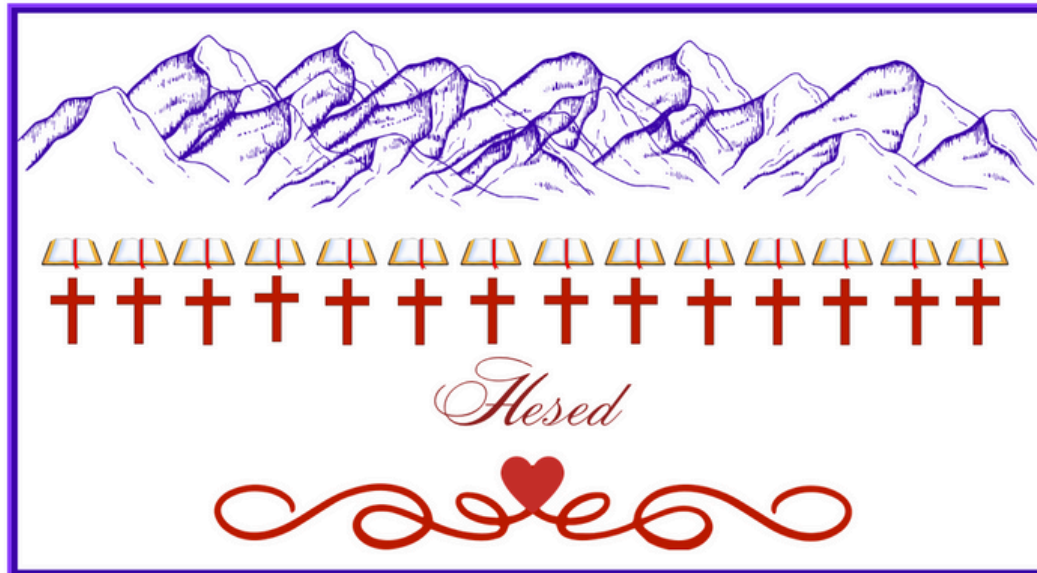

We start small and continue to grow by expanding the size of each village, and adding to the number of villages. All villages are connected globally forming a new world government and economy.

7 > 14 MOUNTAIN PROPHECY

God says he will take care of the evil in the 7 existing mountains because only he knows how deep and vast it reigns and many of the people are hidden so deep we don't know who they are. He will dismantle and wipe out the enemy completely. We are just to focus on building! Do not go toe-to-toe with the enemy.

At the right time, and when our villages are ready to reign in the world, we will emerge and bring Heaven to earth. The children we raise will take leadership and rule with HESED love, truth and oneness.

14 MOUNTAINS

Crossover Mountains:

Government, Spiritual, Education, Arts, Housing

Sustainable Development Goals:

1, 2, 3, 4, 5, 10, 11, 12, 16, 17

Scripture:

Ephesians 5:21, Galatians 4:7

Family is the foundational backbone of every HESED village. Even though children coming in may be orphaned from their birth parents, they are grafted into functioning families where they find their place, connected as sons and daughters in practical, relational, emotional and spiritual ways. Each citizen not only learns their role within the family structure, they are also able to enjoy all the rewards that go with belonging. Truly belonging to a kind, generous, patient, forgiving and nurturing unit. A key aspect of this mountain is creating a culture that is conducive to ultimate personal growth in relational and loving ways. What is happening in the world right now reflects the exact opposite of that, which is why it is one of our main aims to ensure the correct understanding and response to all that is happening around us.

This reflects each child's adoption into their heavenly family. Sonship is learned in experiential and relevant ways rather than just being preached.

Crossover Mountains:

Government, Spiritual, Education, Arts, Housing, Farming,

Sustainable Development Goals:

1, 2, 3, 4, 8, 9, 10, 11, 12, 17

Scripture:

Matthew 25:14-30, Deuteronomy 8:18, John 10:10-11

Every citizen of a HESED village is equipped to become an entrepreneur as the village has many enterprises. An entrepreneur is “one who constantly grows or expands wealth”, as opposed to an employee who works for a paycheck. The children are empowered to create unique and efficient businesses with high-quality products, by selling products like farm produce, woven goods, jewelry, and art. They will also advance to home construction, banking, horse trading, and more as they get older. We establish trade outlets and routes with regular customers developing reliable and trusted relationships. By raising children to become wealth generators and create profit centers, we are not only helping them secure a successful future, we are also enabling them to build more sustainable villages in time to advance the quality of life for more people. One of our core values is that we grow healthy and wealthy TOGETHER. The children can learn these skills as they are included in the daily operations, problem-solving, creative thinking, and money management from a responsible age. Imagine what life could have been like for all of us if we were raised with this practical knowledge from an early age.

Crossover Mountains:

Government, Entrepreneurship, Education, Spiritual, Health, Arts

Sustainable Development Goals:

1, 2, 3, 4, 5, 8, 9, 10, 12, 13

Scripture:

Deuteronomy 8:7-10, Genesis 9:3, Numbers 13:23, 27

Regenerative ecosystems are developed, where every product and by-product is used within the bio-cycle and there is no waste. In the original design of the earth every living thing functioned interdependently with other living things. The waste of one thing is fertilizer to another. As each organism thrives and grows, everything around it thrives and grows proportionately. Efforts are then focused on simply managing the design and balance. For example, sheep provide manure, which fertilizes the ground for crops, and produces seeds to plant a bigger crop the following year. The crops provide food for the sheep, for the citizens, and to generate wealth through sales. The sheep provide fiber for weaving, which is a creative outlet for the health of the citizens, as well as practical needs such as blankets, rugs and clothing. These products and seeds contribute to wealth generation to expand the village. Crops are utilized for food and natural remedies for the citizens, along with wealth generation for the village. Therefore, every aspect of the village is not only regenerative, but it expands the village and builds wealth.

Farming according to God's design produces much larger crops, with nutrient-dense, tastier, more colorful foods. Our reference is the fruit of the Promised Land (Numbers 13:23, 27). There is technology that will produce food for 1000 people with 1 acre of land.

Crossover Mountains:

Sport, Spiritual, Farming, Arts, Education, Government

Sustainable Development Goals:

1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 16, 17

Scripture:

Hebrews 6:1-2, Proverbs 17:22, Mark 6:13, 2 Kings 20:7, Proverbs 27:17

The Health Mountain has 4 main components.

- (1) Natural remedies in the form of herbs and food which are grown in our villages in partnership with the Farming Mountain.
- (2) Breathwork and vibration administered through sound and light have proven to heal everything from trauma to cancer. We've proven it ourselves.
- (3) Supernatural healing and laying of hands, in partnership with the Spiritual Mountain.
- (4) Relationships heal. Intentional loving relationships with people help us to be sharpened. As well, relationships with animals and creation help traumatized children to find attachment and trust again. Horses and alpaca are excellent therapy animals.

Both prevention and cure approaches are followed as we continuously seek to find more natural and ground-breaking alternatives to the treatment of healthy mind, body and soul. God is revealing ancient technologies that are found in nature and by simply being in his presence so they are readily and abundantly available.

Crossover Mountains:

All other mountains

Sustainable Development Goals:

All 17

Scripture:

Proverbs 22:6, Mark 1:22

Every citizen is learning constantly – we grow as we learn and learn as we grow. All education is experiential, relational, relevant and situational. Therefore there are no textbooks and little classroom time is required. The children are included in the building process age appropriately, which means that they are planting and harvesting crops, involved all aspects of entrepreneurship, applying math skills to carpentry, as well as all aspects of building and functioning as a village. Alongside the mentorship of adults, they are rebuilding their own world, as well as the world that tried to destroy them, which empowers them as leaders. The more they get involved, the more it becomes apparent which mountain they have a passion and anointing to take leadership in. They are then empowered to assist in teaching the younger children following in their footsteps. As illustrated in the icon, children are exposed to global scope and integration, problem solving in a team environment, creative advanced technology, and environmental advancement and responsibility.

Crossover Mountains:

All other mountains

Sustainable Development Goals:

3, 4, 10, 16, 17

Scripture:

Acts 1:4-5, John 15:5, 12-13, Colossians 3:2, Romans 8:14

Spirituality (or a lack thereof) determines every aspect of our being. Our approach is about true identity, purpose and worth, stepping into all we were created to be and fulfilling our purpose on this earth with honor and integrity. We receive our guidance directly from God, not religion, distorted practices and extremism. Our unique approach to spirituality is simply to bring the kingdom of Heaven to earth. We do this individually and together as one. This is what makes HESED International different from other people-centered organizations – everything we do is driven by a reverential love for God and each other. We are not able to thrive in an isolated, each man for himself, dog eat dog world. It doesn't matter who you are, there is a certain exchange required to effect an optimal state. It's about cultivating community, caring for one another, advancing people, planet and processes so we can all rise to the fulfillment of purpose. Religion has kept many from discovering the deepest intimacy with God. No matter what anyone has experienced with God so far, there is MORE!

Every citizen of a HESED village, especially the kids, is able to ascend to Heaven to have his/her own direct and experiential relationship with their Father. A daily encounter with Love himself, builds a strong foundation for the village that is indestructible. Just like Enoch, Solomon, John and all the prophets - getting wisdom, direction, rest and healing is part of every day life.

Crossover Mountains:

All other mountains

Sustainable Development Goals:

All 17

Scripture:

Exodus 18:17-24, Revelation 4:4, Ephesians 5:22-33, 1 Samuel 16:7, 12-13, 2 Samuel 5:1-3

Village governance according to God's design is essential for maintaining order while keeping chaos and confusion out. The leaders of each of the mountains forms a council for the leader of the Government Mountain. There is an adult leader and a child leader for each mountain, including government. This is where decisions are made, and communication between all the mountain leaders is exchanged for expansion potential, problem-solving, and general assessment. The village government communicates with the governments of other HESED villages for exchange of ideas, goods trading, technological advancement and general support.

We model God's structure of heavenly government on earth with leaders anointed and appointed by God, and a council of 24.

Family is considered the grassroots level of government, where serving others lovingly, interdependence and collaboration is taught through modeled and taught.

Crossover Mountains:

Government, Education, Spiritual, Arts

Sustainable Development Goals:

3, 4, 5, 6, 7, 11, 12 17

Scripture:

Genesis 9:3 (natural things nourish us), John 14:3

All buildings are constructed from natural materials such as timber, stone/rock, brick, cob, adobe and hemp bricks. These materials are proven to eliminate health issues such as allergies and diseases like asthma, cancer, MS, mental illness and much more.

Hemp is fireproof, mold/mildew-proof, insect-proof, water proof, is light-weight, easy to shape, and requires no formal training to build with. Citizens and even children can build their own homes with unlimited creativity and customization for healthy habitats.

The sheer empowerment and victory that a children experiences when being part of the building of their own home, something they had likely considered only a dream is incredible. Furthermore, with natural materials they are able to create a home that reflects their unique identity and expression of God. There is exponential healing in this.

The housing zone within each village is to be like the Garden of Eden with trees, flowers, pathways, gazebos, ponds, a swimming pool, and a park-like setting for creating an atmosphere of beauty, peace, joy and a connection with nature.

Water & Power

Crossover Mountains:

Government, Education, Spiritual, Housing, Health

Sustainable Development Goals:

2, 3, 4, 6, 7, 11, 12, 13, 14, 15

Scripture:

Deuteronomy 8:7, Isaiah 44:3-4, Isaiah 49:10

Each village is powered by energy sources that are clean, efficient, renewable, abundant and inexpensive. Surprisingly it is very simple to provide enough electricity for a home with a simple antenna and diode that captures electricity from the air and magnetic forces in the ground. In the 1800's this was how homes were powered. Ancient technologies as well as technologies from the 1800's including hydro power that were cancelled with the implementation of oil and coal-based power are now being revealed to us.

All energy and water sources are independent of outside influences and sources.

We know that water shortage is a deception. 71% of the earth is covered by water, and that does not even account for the additional water below the surface, rain water, and water beneath the earth. In fact the air is full of water and technology exists to extract it. The reality is that there is abundant water and the problem is distribution, clear cutting trees, pollution and mismanagement. Villages are empowered to see beyond the problems and implement the various technologies and solutions available.

Communication

Crossover Mountains:

all other mountains

Sustainable Development Goals:

all 17

Scripture:

1 Corinthians 2:14

Communication connects each person within the village with essential news and information – both locally and globally. As such, it also connects villages all over the world sharing news, information, advancement and testimonies. We do this with love, respect, and the intent to build better, faster – as opposed to disrupting and destructing with the negativity and fear tactics of traditional media. It is key for the youth to properly understand the truth, the times we are in and make sense of how to navigate all the new challenges emerging regularly. It is a key aspect of training and developing the youth to lead and conquer in the future.

The Communication Mountain leaders also establish secure platforms for connection. Once again, there are old and ancient technologies for communicating that are genius processes and are now being revealed. They cannot be hacked or controlled by dishonorable sources.

Crossover Mountains:

Government, Education, Spiritual, Health, Housing, Entrepreneurship

Sustainable Development Goals:

1, 3, 4, 5, 8, 9, 10, 12, 13, 16

Scripture:

Exodus 35:10, 33, 35, Exodus 31:3-5

Creativity in all its forms constitutes art. Here we particularly focus on fine art such, as painting, drawing and sculpting, as well as weaving and woven products, clothing construction and design, fibre (wool and cotton) processing and coloring, jewelry making, cooking, gardening, music, drama, building design and architecture. Every citizen has a creative expression that is important for their own well-being as well as for the entire village. Art is an important facet of God's expression through each one of us and brings Heaven to Earth. We develop these gifts in all its wondrous shapes and forms.

Art such as paintings, sculptures, rugs and decoration, that has been created with HESED love, actually transforms the culture in a room. Work is more productive, relationships are kind, inspiration flows and love prevails. Gardens created with HESED love serve the same purpose for bringing the culture of Heaven to a village. HESED villages are filled with art.

Crossover Mountains:

Government, Education, Spiritual, Health

Sustainable Development Goals:

3, 4, 5, 10, 16, 17

Scripture:

1 Corinthians 9:24-27, 2 Timothy 2:5, 1 Chronicles 12:8, Proverbs 24:17-18

We return to the 6 original purposes of sport which include;

- (1) Mental and physical health
- (2) Character and leadership development (problem solving, critical thinking, teamwork, confidence under pressure, endurance, responsibility, etc)
- (3) Teaching hunting skills
- (4) Preparing warriors to defend the village
- (5) Fun and leisure
- (6) Community development as the village enjoys "game days" with interactive activities and sport.

All citizens participate in various activities sports such as swimming, equestrian, team sports, archery, target shooting, dancing and fitness exercises. Obstacle courses with ropes, ziplines and ladders are a fun essential in each village that addresses all purposes of the Sport Mountain. Sport actively connects the mind, body and spirit in experiential and relational ways when it is led and approached well. We recognize that we have already won the greatest victory of all - the victory over death - so there is no longer a need to compete for titles, medals and trophies that are inferior to the victory we have through Jesus. So now we compete to sharpen ourselves and our opponents for the purposes listed above.

The leader of the Sport Mountain in each village plans and implements activities, games and exercise that is fun, relational and meets the listed goals. This includes activities that teach strategy and problem solving like team sports and board games such as chess and checkers.

Transportation

Crossover Mountains:

Government, Education, Spiritual, Entrepreneurship

Sustainable Development Goals:

3, 4, 7, 8, 9, 11, 12, 13, 17

All regular modes of transportation are used, as we explore new avenues of transitioning from place to place. We convert cars, boats and farm equipment engines to water or ethanol-driven engines. This is fairly simple and in fact the original cars were fueled quite comfortably and efficiently by water, which is renewable, clean, and abundant. Ethanol is an alcohol made from hemp or other plants and burns much cleaner than gasoline and oil. It is renewable and can be abundant once we have a steady crop base to sustain the demand.

We are also to raise horses for transportation. The experience of riding a horse is exceptionally relational as we communicate and navigate a path dealing with obstacles and distractions, making the journey a unique collaboration. We are outside in the fresh air, engaging our bodies in exercise, experiencing creation directly by riding horses, and this helps us be one with all Creation while performing a task of getting to a location.

Security

Crossover Mountains:

Government, Education, Spiritual, Sport

Sustainable Development Goals:

9, 16, 17

Scripture:

2 Corinthians 33:14, 2 Chronicles 32:5, 2 Chronicles 20:23

Locally and globally, we are experiencing increased danger and threats to society. Fully functioning systems, rescue operations and the rehabilitation mainly of youth make HESED Villages targets for extremists and corrupt entities. The threat is compounded by the fact that we are rebuilding God's Kingdom. While we do not fear the enemy, and we have faith in God's divine protection for us to execute this mission, robust security measures and control systems are imperative.

Citizens will be trained in all forms of self-defence and how to defend the village. We are all about saving vulnerable lives, not losing them, which is why the Security Mountain has been an essential part of the blueprint right from the start.

All villages will have a wall around the perimeter with strategically placed gates to admit only those with clearance to enter. This is protection for the children, leaders, crops, technology and all other assets. Of course our model for this is Jerusalem itself.

Historically, walls around cities have proven to be highly effective in times of peace as well as war. Furthermore, the villages will be laid out in such a way as to protect the advanced technologies from sight and vulnerability. These technologies can be used for evil if in the hands of dishonorable people.

It's more than a blueprint
... it's a HEART PRINT

N E X T S T E P S

HESED International is a global community of people and organizations working with the most vulnerable children of the world. We are building holistic sustainable safety villages.

It doesn't matter if you are still in the vision phase, or you have a small orphanage, or you have started a school, sport club, farm or feeding center, or if you have built a fully sustainable village already - you are welcome to join us to fulfill God's plan for the children.

In Level 3 you will have access to the following:

Level 3 Partner for Progress

- ✓ Access to growing Technology Library
- ✓ Weekly live training (Wednesdays)
- ✓ Weekly Come to the Table (Fridays)
- ✓ Collaboration - group support, finding solutions together
- ✓ 1 on 1 mentorship
- ✓ Monthly workshop
- ✓ 14 Mountain Blueprint book - Level 2
- ✓ Access to Level 3 Facebook group

**To join Level 3 - complete Foundation Training in Level 2
and contact Kate at kate@hesedinternational.com**
